

## Addendum

### Assembly Bill 288 (full text)

*The people of the State of California do enact as follows:*

#### SECTION 1.

The Legislature finds and declares all of the following:

(a) Research has shown that dual enrollment can be an effective means of improving the educational outcomes for a broad range of students.

(b) Dual enrollment has historically targeted high-achieving students; however, increasingly, educators and policymakers are looking toward dual enrollment as a strategy to help students who struggle academically or who are at risk of dropping out.

(c) Allowing a greater and more varied segment of high school pupils to take community college courses could provide numerous benefits to both the pupils and the state, such as reducing the number of high school dropouts, increasing the number of community college students who transfer and complete a degree, shortening the time to completion of educational goals, and improving the level of preparation of students to successfully complete for-credit, college-level courses.

(d) California should rethink its policies governing dual enrollment, and establish a policy framework under which school districts and community college districts could create dual enrollment partnerships as one strategy to provide critical support for underachieving students, those from groups underrepresented in postsecondary education, those who are seeking advanced studies while in high school, and those seeking a career technical education credential or certificate.

(e) Through dual enrollment partnerships, school districts and community college districts could create clear pathways of aligned, sequenced coursework that would allow students to more easily and successfully transition to for-credit, college-level coursework leading to an associate degree, transfer to the University of California or the California State University, or to a program leading to a career technical education credential or certificate.

(f) To facilitate the establishment of dual enrollment partnerships, the state should remove fiscal penalties and policy barriers that discourage dual enrollment opportunities. By reducing some of these restrictions, it will be possible to expand dual enrollment opportunities, thereby saving both students and the state valuable time, money, and scarce educational resources.

#### SEC. 2.

Section 76004 is added to the *Education Code*, to read:

76004.

Notwithstanding Section 76001 or any other law:

(a) The governing board of a community college district may enter into a College and Career Access Pathways (CCAP) partnership with the governing board of a school district for the purpose of offering or expanding dual enrollment opportunities for students who may not already be college bound or who are underrepresented in higher education, with the goal of developing seamless pathways from high school to community college for career technical education or preparation for transfer, improving high school graduation rates, or helping high school pupils achieve college and career readiness.

(j) The CCAP partnership agreement shall certify that a qualified high school teacher teaching a course offered for college credit at a high school campus has not displaced or resulted in the termination of an existing community college faculty member teaching the same course at the partnering community college campus.

(k) The CCAP partnership agreement shall include a certification by the participating community college district of all of the following:

(1) A community college course offered for college credit at the partnering high school campus does not reduce access to the same course offered at the partnering community college campus.

(2) A community college course that is oversubscribed or has a waiting list shall not be offered in the CCAP partnership.

(3) Participation in a CCAP partnership is consistent with the core mission of the community colleges pursuant to Section 66010.4, and that pupils participating in a CCAP partnership will not lead to enrollment displacement of otherwise eligible adults in the community college.

(l) The CCAP partnership agreement shall certify that both the school district and community college district partners comply with local collective bargaining agreements and all state and federal reporting requirements regarding the qualifications of the teacher or faculty member teaching a CCAP partnership course offered for high school credit.

(m) The CCAP partnership agreement shall specify both of the following:

(1) Which participating district will be the employer of record for purposes of assignment monitoring and reporting to the county office of education.

(2) Which participating district will assume reporting responsibilities pursuant to applicable federal teacher quality mandates.

(n) The CCAP partnership agreement shall certify that any remedial course taught by community college faculty at a partnering high school campus shall be offered only to high school students who do not meet their grade level standard in math, English, or both on an interim assessment in grade 10 or 11, as determined by the partnering school district, and shall involve a collaborative effort between high school and community college faculty to deliver an innovative remediation course as an intervention in the student's junior or senior year to ensure the student is prepared for college-level work upon graduation.

(o) (1) A community college district may limit enrollment in a community college course solely to eligible high school students if the course is offered at a high school campus during the regular school day and the community college course is offered pursuant to a CCAP partnership agreement.

(2) For purposes of allowances and apportionments from Section B of the State School Fund, a community college district conducting a closed course on a high school campus pursuant to paragraph (1) of subdivision (p) shall be credited with those units of full-time equivalent students attributable to the attendance of eligible high school pupils.

(p) A community college district may allow a special part-time student participating in a CCAP partnership agreement established pursuant to this article to enroll in up to a maximum of 15 units per term if all of the following circumstances are satisfied:

(1) The units constitute no more than four community college courses per term.

(2) The units are part of an academic program that is part of a CCAP partnership agreement established pursuant to this article.

(w) The statewide number of full-time equivalent students claimed as special admits shall not exceed 10 percent of the total number of full-time equivalent students claimed statewide.

(x) Nothing in this section is intended to affect a dual enrollment partnership agreement existing on the effective date of this section under which an early college high school, a middle college high school, or California Career Pathways Trust existing on the effective date of this section is operated. An early college high school, middle college high school, or California Career Pathways Trust partnership agreement existing on the effective date of this section shall not operate as a CCAP partnership unless it complies with the provisions of this section.

(y) This section shall remain in effect only until January 1, 2022, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2022, deletes or extends that date.
